ACER GROUP

At Acer, our mission is to break down barriers between people and technology. We believe technology should empower the lives of everyone. Acer is a brand for the many, not the few.

WE ARE CURIOUS

We are a nimble team of pioneers. We have active minds, open to new worlds and ideas.

WE ARE PROGRESSIVE

Our curiosity moves the industry forward. We believe if it doesn't improve lives, it's not worth making.

WE ARE HUMAN

Our legacy was built on investigating the needs of people. We make products for the many, not the few. We take pride in our products, but we take even more pride in what people can accomplish.

OUR STRENGTHS

Acer's commercial products were made with users' needs in mind: built to be adaptable and suited for diverse work environments and scenarios.

With the evolving needs for modern hybrid working and learning environments, we are committed to delivering a versatile, easy-to-use, and easy-to-manage portfolio suitable for the needs of business and education today, and for overcoming the challenges of tomorrow.

Experience

With more than 40 years of experience in the world of computing, we deliver superior business solutions that best meet customer requirements.

Service

Acer partners and customers receive outstanding assistance, including technical support, a collect-and-return service, updates on the latest technologies, and online trainings.

Reliability

Acer offers a wide range of innovative features and products that are built and tested to last. Our reliability is proven by industry-standard military grade certifications, acknowledged with service awards, and complemented by professional warranty services.

Success

Acer is committed to provide optimized solutions and offerings, seeking maximum mutual benefits among customers, channel partners, and Acer.

Support

Acer supports partners and their customers at all levels and our compelling tools and channel programs are designed to make it easy to work with Acer.

Range

Acer provides channel partners with a comprehensive range of products and solutions designed to deliver the best performance, security, and manageability.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG)

Acer engages in ongoing review and promotion of important sustainability issues and strives to incorporate sustainable development policies into daily operations. We have established an ESG governance pipeline for the communication of relevant issues, implementing a variety of resolutions and pursuing stronger governance. We review the overall environment and the expectations of our stakeholders to plan Acer ESG policy and more deeply integrate ESG into our overall value chain to boost ESG performance.

COMMITMENT TO UN'S SUSTAINABLE DEVELOPMENT GOALS

Acer is committed to adhering to the United Nations' Sustainable Development Goals by leveraging its core competencies in technology, products, and services to address societal and environmental needs.

GLOBAL RECOGNITION OF SUSTAINABILITY EFFORTS

Acer's endeavors in developing eco-conscious products and environmental-friendly initiatives have been recognized by worldwide media and design experts, a testament to the fact that these efforts are resonating with industry trends.

Multiple Vero products won the 2022 Good Design Awards: namely the Acer Chromebook Vero 514, the Acer Veriton Vero all-in-one, and the Acer Vero CB3 series monitor. The Aspire Vero laptop added to its growing list of accolades with the 2022 iF Design Award and 2022 Red Dot Award, and was selected as Sustainability Product of the Year by the Business Intelligence Group.

Acer's eco-friendly packaging, film, animation, and Project Humanity campaign designs earned the 2022 Red Dot Brands & Communication Design Award for their creative communication and design excellence.

The award-winning Project Humanity campaign won a Shorty Impact Award in the "Best in Employee Engagement" category. The award celebrates the most impactful and purpose-driven works on digital and social media that make the world a better place.

DOW JONES SUSTAINABILITY INDICES

Member of
**Dow Jones
Sustainability Indices**

Powered by the S&P Global CSA

Acer achieved full marks of 100 as well as scored in the top 100th percentile across various components: Materiality, Risk and Crisis Management, Innovation Management, Environmental Reporting, Social Reporting, Human Capital Development, Customer Relationship Management.

2022 MSCI ENVIRONMENTAL, SOCIAL, AND GOVERNANCE INDEXES

Acer has been listed on MSCI Indexes since 2014. Acer demonstrates strong initiatives for improving its supply chain labor standards and transparency in sourcing of conflict minerals.

PRODUCT DESIGN

Acer Vero devices can be recycled and are made with sustainable materials such as post-consumer recycled (PCR) and ocean-bound plastics to reduce their environmental impact from start to finish.

SUSTAINABLE MATERIALS

We work with suppliers to integrate more eco-friendly materials into our Vero devices.

REPAIRABLE AND UPGRADABLE

Our products are intentionally designed to be easy to disassemble, repair, and upgrade to further extend their lifecycle.

ENERGY EFFICIENCY

We work with partners to continuously reduce energy consumption, improve battery lifespan, and become more efficient.

30M+

Over 30 million units used post-consumer recycled plastics in 2020 to 2022

17%

17% of post-consumer recycled (PCR) plastics used in computers and displays

No surface paint on specific models. Applied low VOC print on product stickers

PACKAGING DESIGN

The packaging of our Acer Vero notebook employs minimalistic and eco-conscious elements, incorporating 90% recycled paper and post-industrial recycled (PIR) polyester, designed for extended usability.

REDUCING PLASTIC

We work with suppliers to reduce the amount of plastic used in our packaging, such as replacing plastic handles with paper handles.

RECYCLABLE PACKAGING

Our choice of materials and printing method ensures packaging materials can be easily recycled to start a new packaging journey!

90%

Cardboard boxes are made from 90% recycled paper

100%

Molded pulps are made from 100% recycled kraft paper

100%

Non-woven fabrics are made from 100% recycled PET

40%

Printed materials are made from 40% recycled paper

Posters are made from FSC certified paper

PRODUCTION

We work with industry partners to rethink the production process and improve chemical and waste management.

WASTE MANAGEMENT

Plastic usage during the manufacturing process is a hidden threat to the environment. Starting with removing plastic bag usage from the power cord production of our products, we also bring changes to our suppliers' manufacturing system.

69%

In 2022, 69% of our notebook, desktop, and monitor products obtained the ENERGY STAR certificate

13%

In 2022, 13% of our products are EPEAT registered and 10% are TCO Certified

7.1M

In 2022, over 7.1 million of phthalates free products were shipped.

LOGISTICS

Our optimized logistics and transportation allow us to cut unnecessary waste and reduce greenhouse gas emissions.

WASTE REDUCTION AT THE SOURCE

We remove the usage of redundant and unrecyclable security tape from product lines, starting from our monitor lines.

RESPONSIBLE LOGISTICS SYSTEM

We developed a carbon accounting system to optimize the way we do our logistics, so our systems allow for logistics optimization based on our shipment record data.

RECYCLING

Channel and recycling solutions give our products and materials a new purpose at the end of their lives.

PRODUCT RECYCLING

We actively support a variety of measures promoting recycling around the world, along with Individual Producer Responsibility (IPR), and are committed to working with stakeholders including governments, consumers, and channels/retailers to shoulder the responsibility for recycling and managing electronic waste.

Around the world, Acer follows local government standards for various electronic product recycling programs and provides convenient recycling methods for consumers to improve the efficiency of waste recycling in the hope of contributing to resource sustainability.

ENERGY

Our operations use renewable energy such as solar to keep fossil fuels where they belong—underground.

RENEWABLE ENERGY AT OPERATING LOCATIONS WORLDWIDE

The total power generation for the whole year in Acer Group was around 3.8 million kWh. Compared to 2020, this amount is an increase of approximately 450,000 kWh.

SMART CHARGING SOLUTION

Acer subsidiary Acer ITS's charging solution is the first in Asia to launch smart parking charging stations for roadside parking.

65%

65% renewable energy used in our IT products business operations

13M

We used over 13 million kWh and generated 3 million kWh of green electricity in 2022

TAKE YOUR BUSINESS TO THE NEXT LEVEL

BUSINESS

Business tomorrow might look different from business today. Acer for Business provides the technology solutions that businesses both large and small need to thrive. Our collection of easy-to-use and easy-to-manage business laptops, desktops, display and peripherals are designed to empower organizations and workforces to get work done faster, collaborate from anywhere, and enhance efficiency with ease whether it be on-site or remotely.

Built for Business. Intel vPro®
Powered by Intel® Core™ i9 Processor

TravelMate

The nature of work is changing, and technology must evolve to reflect these changes. Acer's TravelMate series offers feature scented around five essential elements to provide a more pleasant and secure hybrid working experience.

Built for Business. Intel vPro®
Powered by Intel® Core™ i9 Processor

Collaboration

TravelMate devices are optimized with Microsoft Teams, upward-facing speakers, image sharpening, and noise cancellation technology that improves teamwork and efficiency in collaborative work environments.

Productivity

The latest Intel® Core™ processors provide optimal processing performance, and Microsoft Office applications further boost productivity. With ultrathin and light form factors, 4G LTE capabilities, Wi-Fi 6 connectivity, and fast charging, you'll push the boundaries of what you can accomplish even further.

Security & Privacy

Security and privacy are top priorities with features such as Windows Hello, Acer ProShield Plus, Trusted Platform Module 2.0, an integrated camera shutter, and Intel® vPro™ technology.

Organizational Efficiency

Windows Autopilot and Microsoft Endpoint Manager allow for easier deployment and management across devices and apps without disruption. Remote Desktop capability also enables users to access their files and apps virtually regardless of where they are.

Added Protections

Durable enough to handle unexpected drops and spills, TravelMate products have received Military Grade Tested MIL-STD810G/H rating. To give users another layer of protection, an anti-microbial Level 1 design helps reduce and limit the growth of bacteria on device surfaces.

PARTNER STORIES

OUTLYR TAKES TRAVELMATE LAPTOPS ON THE GOLF COURSE

When Outlyr needed to equip their team with portable, durable, reliable, and easily deployable laptops, they turned to Acer and chose the TravelMate series. Producing more than 300 events each year, such as the ShopRite LPGA Classic Presented by Acer, Outlyr's 60-plus employees must pay close attention to detail.

To keep events flowing smoothly, the Outlyr team used TravelMate devices to input information in real time so that tee times, games, and other changes could be updated automatically and give everyone precise and up-to-date details.

The lightweight TravelMate laptops are easy to carry and use on the golf course, and their impact- and weather-resistant design stands up to the wear and tear of regular outdoor use. They have enough battery life to get through a long day without access to power, the latest processors to ensure fast performance, advanced security to enable secure operation, and Thunderbolt and USB-C ports to allow pairing with other devices.

"Knowing that we have computers that we can trust and rely on, and not have to always worry about things breaking down ... is very important to us," said Jen Tierney, Senior Director at Outlyr.

The growing team at Outlyr trusts Acer. And paired with the TravelMate series, they're well-equipped to pull off events without a hitch and uphold their reputation for meticulous planning and flawless execution.

PARTNER STORIES

ACER POWERS A LEADING ASIA PACIFIC AUTOMOTIVE PART SUPPLIER

GPC Asia Pacific is a leading provider of aftermarket car parts with a strong presence in Australia and New Zealand, supplying prominent businesses such as Repco, NAPA, Sparesbox, AMX Superstores, and more. The company's scale, buying power, and unmatched logistics make GPC Asia Pacific a leader in the region, with annual sales of more than AUD 1.5 billion. With close to 100 years of operational experience, the largest store footprint in the industry, and a customer-focused genuine service ethos, GPC Asia Pacific needed to ensure it was also delivering exceptional customer service with the latest, industry-leading technology.

Acer has been a vital hardware supplier for GPC Asia Pacific since 2016 and has provided the car parts supplier with a variety of high-performance notebooks, desktops, and monitors - with the versatile TravelMate P6 Spin 14 being the most recent example.

Not limited to only providing industry-leading hardware, Acer also offers various managed services in the form of pre-loading SOE images via domain links, applying asset tags, deployment, and disposal of assets. Throughout the relationship with GPC Asia Pacific, Acer has assisted over 550 different sites across Australia and New Zealand.

INSPIRE POTENTIAL

Technology is breaking teaching boundaries with new and dynamic hybrid classroom formats while also enabling information to be accessible at the touch of a button. Acer for Education aims to utilize these new technologies to inspire potential in every aspect of the education system, so educators and students can succeed in the classroom and beyond.

RUGGED SOLUTIONS FOR THE CLASSROOM

Classrooms are a busy place, and Acer's rugged devices are designed to keep both students and teachers focused on learning – and not trying to troubleshoot their device.

USER CENTRIC DESIGNS

Our devices emphasize innovative features built to meet the needs of students and teachers, ensuring ease of use, fostering creativity, and building towards a more sustainable future.

ACER FOR EDUCATION RUGGED SOLUTIONS

Classrooms are a busy place, and Acer's rugged devices are designed to keep both students and teachers focused on learning with peace of mind.

Built Tough

Durability is at the forefront of our designs. With reinforced corners and honeycomb interior design, our devices deliver resilient performance when subjected to the even the harshest of drop tests.

Resilient Display

Our durable displays are designed to resist the kind of impacts and scratching that happen in the busy classrooms.

Dependably Designed

With moisture resistant touchpads and keyboards as well as mechanically anchored keys, our rugged devices offer schools a dependable choice that they can rely on.

PARTNER STORIES

SUSTAINABLE DIGITAL TRANSFORMATION: LEO ACADEMY TRUST AND ACER LEAD THE WAY

Today's schools know that the future begins in their classrooms. And that holds true both for education and the environment.

LEO Academy Trust in the UK partners with Acer to achieve a sustainable digital transformation, combining education and environmental responsibility.

LEO Academy Trust comprises seven primary schools, supporting over 3,800 pupils and 500 staff members. They strive to be leaders in sustainability, using Acer's energy-efficient devices in their strategy.

Students benefit from the Acer Chromebook Spin 511, offering versatility, a world-facing camera, a low-power Celeron® processor, a built-in stylus, durability, and extended battery life. Teachers use the Acer Chromebook Spin 713, with a powerful Intel® Core™ processor, convertible design, and long-lasting battery.

LEO Academy Trust's commitment to sustainability extends beyond devices. Acer, in partnership with Ecologi, plants a tree for every Acer Chromebook purchased by the trust. We have planted over 1,300 trees in Madagascar to offset carbon emissions.

This partnership showcases the possibilities of sustainable digital transformation in education, fostering a greener future while empowering students and educators.

PARTNER STORIES

ENHANCING DIGITAL LEARNING: ACER CHROMEBOOK SPIN 514 AT BAKALKA SCHOOL

Bakalka is a primary school with extended language teaching in Brno, Czech Republic. Principal Yveta Gašparcová affirms that the decision to adopt Acer Chromebooks was a game-changer even before the pandemic. Today, the school relies on Acer Chromebook Spin 514, paired with Chrome Education Upgrade, as a constant presence in their classrooms.

Acer Chromebook Spin 514 offers an intuitive and seamless user experience. Students can enhance collaboration with fast boot times, easy file sharing, a convertible form factor, and a big touchscreen.

Durability is another standout feature of Chromebooks. Acer Chromebook Spin 514 incorporates military-grade durability, withstanding the rigors of daily use.

Teachers at Bakalka School have also embraced Acer Chromebooks for their ability to provide instant feedback and streamline assessment. The devices enable educators to assess student progress in real time, even during lessons.

By leveraging Chrome Education Upgrade, Bakalka School has unlocked the full potential of ChromeOS. The comprehensive features, including enhanced security and automatic updates, ensure a secure and hassle-free experience. The centralized app installation and policy management simplify IT administration, allowing educators to focus on teaching.

EMBRACING ICT FOR ENHANCED LEARNING: THE VARIETAS FOUNDATION AND ACER PARTNERSHIP

Varietas Foundation, a leading school group in the Netherlands, has embraced the power of Information and Communication Technologies (ICT) in education through its partnership with Acer.

With 30 locations in the Sallan and Twente region, Varietas Foundation strongly recognizes the significance of technology in students' lives. They sought a partner to supply laptops that would support their educational vision, and Acer emerged as the ideal choice.

Over the past five years, Varietas has equipped students in grades 5 to 8 with over 4,500 Acer TravelMate Spin B3 laptops. These devices boast long-lasting battery life and rugged designs, ensuring durability and sustainability. They offer versatility with a compact form factor and a 360-degree hinge, allowing them to transform into tablets.

Equipped with a world-facing camera, HD touch screen, and a dockable Wacom pen, students can engage in interactive learning experiences.

The partnership between Varietas Foundation and Acer has empowered digital learning, creating an environment where technology seamlessly enhances the educational journey.

DRIVING MALAYSIA'S FUTURE: ACER AND CITY UNIVERSITY EMPOWER STUDENTS WITH CUTTING- EDGE TECHNOLOGY

Acer Malaysia has collaborated with City University to provide students with a world-class technology experience. By equipping every student with an Acer TravelMate laptop, the partnership aims to empower students with the tools they need for hybrid studies.

In the modern era of online classes and remote meetings, portability and accessibility are crucial. The Acer TravelMate P2 laptops offer a lightweight yet durable chassis, and long-lasting battery life, ensuring students can carry the device throughout the day without the need for constant charging or searching for power sockets. The laptops also feature a larger screen and a high-quality webcam for interactive online classes.

The Acer TravelMate P2 laptops simplify efficient device management thanks to their cloud suite, enabling administrators to optimize resources and efficiently deploy new devices. City University's IT team can update the laptops remotely, while seamless virtual connectivity allows them to address student queries promptly.

Acer is committed to extending similar solutions to more leading educational institutions in Malaysia, ensuring students nationwide have access to world-class education and technology.

PROJECTOR SOLUTIONS FOR ANY BUSINESS VENUE

Acer projectors combine brilliant displays, high resolutions, and color enhancing features to deliver crystal clear visuals and exceptional brightness and contrast ratio in any venue.

LASER LIGHTING TECHNOLOGY

The up to 6,000 lumens generate crisp and vivid images even in bright and large environments, while guaranteeing high image quality. Unlike lamp-based projectors that block most of the light and leave only RGB, laser creates only the exact color needed, meaning it uses less power and is much brighter. 50% of power is saved compared to lamp-based projectors, while generating the same level of brightness. Laser is also a mercury-free light source.

LED LIGHTING TECHNOLOGY

LED lighting lets you enjoy outstanding color performance with up to 125% Rec. 709 wide color gamut, creating vibrant visuals and delivering consistent color saturation. Its greater durability provides a lifespan of up to 30,000 hours. In addition, by eliminating the potential pollution from mercury lamp disposal, your projector is free from environmentally hazardous substances.

PL6 Series Large Venue Projectors

Light Up the Space with Laser

The PL6610T large-venue projector features powerful laser light source with high brightness. The laser diode offers high efficiency and 30,000-hour lifespan, bringing you true maintenance-free operation. Delivering 5,500 lumens brightness and 2,000,000:1 contrast ratio, image can be crystal-clear even in well-lit large venue. With 360-degree projection & portrait mode, you get the best projection flexibility/versatility in events, exhibition or trade shows.

P6 Series

Brighten your space

Wireless Built-in Presentation System*

Acer P6505 offers a premium projection solution for both small and large conference rooms. It delivers amazing image quality with 5,500 lumens brightness, XGA resolutions and LumiSense+. Vertical lens shift also allows easy installation. P6505 is integrated with multiple IO interfaces, compatible with all kinds of industrial standard devices.

THE BEST SOLUTIONS TO WORK AND SHOWCASE YOUR IDEAS

DISPLAY

Without the best display, brilliant ideas cannot come to life. Acer's displays are meant to help you create your best work and showcase it effortlessly and beautifully. Be bold and create the next big idea, presentation, or design-- and leave the rest to us.

ACER DOCKING DISPLAY

Docking displays create a complete and clutter-free workspace so you only have to set up once. Boasting USB-C functionality, these displays come with a variety of features that let you effortlessly transition your laptop from a work to a home environment without the need of transferring files or the hassling with cloud storage.

ACER VISION CARE™

Acer Vision Care helps reduce eye strain and provides a more comfortable viewing experience. Acer Vision Care incorporates several features including BlueLightShield Pro, LightsSense, ColorSense, and Proxisense that take into consideration prolonged usage by heavy users such as programmers, writers, and graphic designers to reduce eye strain.

ECODISPLAY FOR SUSTAINABILITY

For Acer, embracing corporate sustainability means being a successful worldwide IT company with triple-bottom-line achievement in terms of well-balanced performance economically, environmentally, and socially. Acer actively works to fulfill its corporate responsibility by protecting the environment and helping advance global society with emphasis on Epeat, TCO, and Energy Star guidelines.

UT1 Series Touch

Give a Boost to Your Home or Office

Work for comfort with more flexibility, the Acer UT1 Series comes with smooth transition stands that can be adjusted to find your best spot. The LCD with 10-point touch screens has never been better with Windows 10 touch features that let you take advantage of navigating web pages, flick through photos, paint and even play your favorite games. Acer UT1 also comes with the ZeroFrame design and seamless view with resolution FHD 1920 x 1080. As much as you want to play games or work for hours, your eyes can be at risk with the Flicker-less technology can eliminate annoying screen flicker, also BlueLightShield can protect your eyes and can be adjusted to ensure your comfort.

T2 Series Touch

Ergonomic Design, Smart Viewing

Acer T2 Series monitors offers a sleek and unique design with flexible upward tilt of up to 60 degrees combine with edge-to-edge screen creates a “floating” yet asymmetric and ergonomic design that support 10-point touchscreens. These monitors also feature Full HD support for outstanding video performance, USB 3.0 ports, and white-LED backlighting to save energy.

SMARTER SOLUTIONS, BETTER SECURITY & MANAGEABILITY

Define the future. For those who can drive change, it's our responsibility to guide the next steps. At Acer, we have the technology and solutions to help you be the best you can and pave the way forward together.

MILITARY GRADE RELIABILITY

High and Low Temperatures

Tested to ensure performance across all temperatures ranging from -32°C to 49°C for over 8 hours.

Humidity

Tested devices are subjected to cycles of humidity ranging from 58% to 88% over a period of 24 hours.

Drop Test

Devices are dropped 26 times from a height of 122cm (48 inches) onto each corner, side, and panel onto a 2-inch thick surface of plywood. Devices are inspected for any damage after each drop.

Rain

Devices are tested against rain exposure, subjected to water sprays from a specified height and inspected for damage afterwards.

Vibration Test

Devices were subjected to vibrational testing to ensure that all materials would be able to endure transportation and handling.

Shock Test¹

Devices and their components are tested for their resistance to exposure to dry, blowing sand as well as how they perform in dust-laden atmospheres.

1. Tested on specific models only. See individual product pages for details.

**WINDOWS
SOLUTIONS**

SECURITY

Acer User Sensing¹

Protect your on-screen data with Acer User Sensing technology. The built-in ToF sensor allows for accurate detection of people based on range and movement, locking the screen when you leave and allowing you to log back in quickly when you return.

Acer PrivacyPanel¹

Acer PrivacyPanel technology protects against prying eyes and helps keep the information on your display private. When activated, it obscures viewing angles beyond 90°, and can be switched off to make use of full viewing angles to share and collaborate.

1. Feature limited to select models only.

Acer ProShield Plus

Featuring file encryption, shredding, Windows Hello authentication, and more, Acer PCs loaded with Acer ProShield Plus deliver an all-in-one security solution that helps secure against unauthorized access and intrusion.

Windows Secured-core PC

Windows Secured-core PCs from Acer offer the highest level of protection that prevents unauthorized access to the device, enables secure booting, protects from firmware vulnerabilities, and more.

PRODUCTIVITY

Acer DustDefender¹

Improve device longevity and maintain maximal performance with Acer DustDefender. This feature expels dust from fans when powering on your device and after every 6 hours of use, reducing dust buildup in your devices so that they always perform at their best.

Acer PurifiedVoice™¹

Acer PurifiedVoice™ uses AI noise reduction to actively suppress background noise for both speakers and listeners. The microphone's pickup patterns can also be adjusted to suit specific scenarios, such as personal calls or group conferences.

1. Feature limited to select models only.

Acer Light Sensing¹

Equipped with an RGB sensor located next to the webcam, Acer's Light Sensing technology detects ambient lighting conditions and adjusts the display's brightness and color temperature so that the screen always looks natural and delivers an optimal viewing experience.

MANAGEABILITY

Acer Commercial BIOS

Simplify the device management experience with a GUI BIOS. We ensure devices remain optimized and secure with features such as diagnostic and system testing tools, USB device management, system self-healing capabilities, and more.

Acer Office Manager

Acer Office Manager (AOM) is an endpoint management solution that simplifies device management for small businesses without dedicated IT staff, enabling you to implement security policies, monitor IT assets, and schedule maintenance tasks with ease.

Windows AutoPilot

By allowing IT personnel to pre-configure devices in the cloud before they arrive in the end-users' hands, Windows AutoPilot saves time and cost by streamlining the out-of-the-box experience for end-users in enterprises or large educational organizations.

AOPEN PC

Choose SMART. Choose AOPEN.

AOPEN is SMART INNOVATION. Our continuing advancements have led to unique and custom solutions deployed globally. The company is actively developing solutions in response to current and future market demand in applied computing and smart vision products, empowering AIoT and Machine Learning applications in a variety of industries such as QSR, Smart Retail, Smart Manufacturing, Hospitality, and Transportation utilizing analytical data to increase revenue.

3rd Gen Intel Xeon Scalable processors are...

Optimized for cloud, enterprise, HPC, network, security, and IoT workloads with **8 to 40 powerful cores** and a wide range of frequency, feature, and power levels.

The only data center CPU with **built-in AI acceleration**, end-to-end data science tools, and an ecosystem of smart solutions.

Infused with Intel Crypto Acceleration, increasing the performance of encryption-intensive workloads including SSL web serving, 5G infrastructure, and VPN/firewalls, while reducing the performance impact of pervasive encryption.

Engineered for the demands of cloud workloads and to support a wide range of XaaS environments.

Powered by Intel SGX, which protects data and application code while in use from the edge to the data center and multi-tenant public cloud.

Data Protection

PROTECTING YOU AGAINST THREATS OF TODAY & TOMORROW

Vulnerability assesment
 Discover, analyze and report your security flaws and vulnerabilities with automted scanning tools.

Penetration Testing
 Simulated cyberattack to assess your system performance with Black, Gray, White Box, Bruteforce, and so on.

ISO & Security Consulting
 Ensure your company's security by having the ISO 27001 certification with ACSI. ISO 27001 certification will be done through a systematical investigation over threats, vulnerabilities, and their impacts.

Performance Testing
 Evaluate the speed, responsibility and stability of your computer, network, or software to identify performance-bottlenecks.

Digital Forensic
 Defend and analyze attacks on your application to gain knowledge on how to improve your application.

Cyber Security Operation Center
 Supervise and protect your application with our 24/7 protection service. We prevent, monitor, detect, analyze, and respond to your security inciden

Jelajah Ilmu Supports the Education Ecosystem

Comprehensive solutions for all parties in the educational process.

Jelajah Ilmu Future Solution for Digital Education

Jelajah Ilmu, a technology-based education system, is available in over 20 countries and has won International awards. Adapted into the Indonesian curriculum, Jelajah Ilmu offers its services for Elementary School (SD/MI), Middle School (SMP/MTs), and High School (SMA/SMK/MA/MAK) students.

Why Choose Jelajah Ilmu?

- Jelajah Ilmu offers plenty of benefits, especially for the teachers as Jelajah Ilmu helps teachers to simplify the teaching preparation. Thus, the process will be more efficient and the teacher will be a learning facilitator.
- eBooks are adapted into the Indonesian curriculum.
- Comprehensive teaching materials resulting in a more efficient teaching preparation.
- Allows teachers to give, prepare, and mark the assignments or exams to further simplify the student's learning evaluation process.
- Teachers can simply review the performance of every student at any given time - allowing them to facilitate their students to achieve best results.

Teachers

For Teachers, Jelajah Ilmu is a helpful platform in any academic activity:

- Create internal or external live section class
- Automatically records in-class attendance
- Create, receive, and mark the assignments
- Access video or eBook learning sources
- Generate assessments or exams from question
- Communicate with students through group chat or announcement
- Upload the self-made subject and share them with the students
- Review students' activities and gain insights into the students' learning conditions

Students

For students, Jelajah Ilmu is designed to improve the students' learning outcomes through:

- Accessible video or eBooks learning materials
- Easy access to all schedules and assignments
- Straightforward online classes attendance and lesson recap
- Trouble-free and simple system for students to receive, do, and submit their assignments
- Self-made test sheet from the learning materials to determine the weakness area
- Simple communication with teachers and fellow classmates through a group chat

School Leader

For school leader, Jelajah Ilmu allows the school leader to monitor all learning activities in school:

- Review all activities in every class
- Review the teacher and students' activities
- Examine any information related to activities in class
- Replay the in-class lessons
- Modify or adjust the logo and school message
- Send and receive notifications from all related parties

Parents

For Parents, Jelajah Ilmu supports parents' roles in the students' academic activities by allowing them to:

- Monitor the students' activity within the platform
- Keep track of assignments and remarks given by the teachers
- Review the information related to student' in-class activities
- Replay the lesson in class

Professional Services

Service Award

Acer's commitment to top level after-sales service has been acknowledged worldwide.
